

The old house

The complex includes an old bulgarian renaissance house, which dates back to 180 years ago. This used to be the home of Brayko Enev (a revolutionary from the April Uprising - 1876) and his family.

The house is currently undergoing a restoration and is due to welcome exhibitions – painting, graphics, photography. There also will be held craft courses and presentations of prominent bulgarian artists, professors from the Science Academy and natural talents in the field of traditional crafts and applied arts. The house will also welcome a permanent exhibition of

The old house

paintings and photographs by bulgarian and european artists.
